Rushville, Indiana, Tuesday Evening, January 15, 1918

SIX PAGES TODAY

Business Hours Cut; Two Cars are Seized

One Load of Coal Confiscated Goes to County and Other Is Sold To Consumers In 500 Pound Lots. With Few Exceptions No Stores Will Open Until 9:00 A. M. Groceries Will Open at 7:00 A. M. and Close at 4:00 P. M.

ORDER APPLIES TO THE WHOLE COUNTY

Mail Service and Traffic Does Not Improve Following Heaviest Snow of Winter. Interurban Service Abandoned And no Mail Reaches the City. Continued Cold Tonight and Warmer Tomorrow.

The county fuel administrator, S. L. Trabue, today issued orders restricting business hours as a fuel conservation measure and confiscated two car loads of coal, one of which was bound for Connersville and the other for Fort Wayne. One car was sold to consumers today in 500 pound lots and the other car went to the court house and jail heating plant, which would have had to close down tonight or in the morning. Restriction of business hours will become effective Thursday, and apply to the whole county. Conditions were no better than yesterday. Mail service and rail traffic were not improved and the condition of the country roads was worse by reason of the heavy snow which fell last night. The snowfall was the heaviest of the winter. It was estimated at ten inches, and coming on top of that which came in with the blizzard last Friday and Saturday, made the going under foot extremely difficult.

Rushville was as badly isolated today as last Saturday. For the third day the rural mail carriers were idle and a few farmers who could plow through the snow came in after the mail. One train went east this morning on the C. I. & W. railroad but carried no mail. Word was received at the local offices of the railroad that the early morning mail train from Chicago was being run over the Big Four and that as soon as it reached Indianapolis, mail for this division would be started.

The Indianapolis & Cincinnati Traction company's interurban service was interrupted again today and no cars were being run. Every effort was being made to clear the tracks so that service could be resumed.

Snow was piled ten feet high on the streets in the business district. Merchants attempted to make drive-ways up to their stores. The city endeavored to haul the snow off the downtown streets, but could find no men who would work. Snowplows were started on the sidewalks at two o'clock this morning so that early morning pedestrians could get to their work.

Schools in every part of the county have been interrupted. Practically none was open in the southern part of the county today, due to the inability of hack drivers to get over the roads. The northern part of the county was in better shape. During the present emergency city schools will be closed early and no meetings whatever will be held in the buildings after school hours so as to save as much fuel as possible. The grades were to close at 3 p. m. today and the high school at 3:30.

A part of the much talked-of cash-and-carry plan was in vogue

It is hereby ordered:—

1. That no coal shall be sold or delivered by any dealer or other person to any place of amusement or entertainment.
 2. That no mercantile house or bank, except hotels, restaurants, grocery stores and meat markets shall be opened before nine o'clock A. M.
 3. That no grocery store shall be opened before seven o'clock A. M. or remain open after four o'clock P. M. except on Saturday night.
 4. That no mercantile house shall remain open after ten o'clock P. M., Saturdays included.
 5. That no mercantile house or bank shall be lighted after closing hours except that one burglar light will be permitted at night.
- For the purposes hereof, theatres, confectioneries, barber shops, pool rooms, cigar stores and bowling alleys are considered mercantile houses.
- This order applies to the entire County of Rush and shall be in full force and effect from January 17, 1918, during the present emergency, and until modified or rescinded.

Witness my name this 15th day of January, 1918.

SAMUEL L. TRABUE,
Fuel Administrator, Rush County.

here today because the Benson delivery system had not attempted to make any deliveries up to noon. It was planned to start out with two wagons, each drawn by four horses, at two o'clock this afternoon and make as many deliveries as possible.

Today was much colder than yesterday and fair and continued cold weather is predicted for tonight, with colder weather in the northeast part of the state. Increasing cloudiness with warmer weather and probably snow is forecast for tomorrow. The mercury got very close to zero last night and was never more than ten above today, according to street thermometers. Wire communication with Elwood Kirkwood of Mauzy, county weather observed, was broken today and the official temperature could not be learned.

The car of coal confiscated for the county heating plant was slack and the fuel administrator thought that it could not be used in stoves. A car of coal which has been ordered through the fuel administration for the county plant will be sold to consumers when it arrives. The threatened closing of the court house is put off temporarily by the confiscation of the car of coal. The administrator thought it advisable to let the county have the coal since the court house was being used as a relief station.

The car was consigned to the Fort Wayne rolling mills, which is making government orders. It was set off on the siding at the L. E. & W. yesterday, but the fuel administrator hesitated about confiscating it because it went to a plant engaged on government orders. He conferred with the state fuel administrator, who said to take it since it was not billed directly to the government. Besides, the L. E. & W. could not

Young Men Practice Trench Digging in Snow Anticipating The Future.

A cadet training school for young men who apparently believe their trench digging days are near was started in the downtown districts of the city today. The clearing off of the sidewalks and the streets made mountainous snow banks at the side of the walks some of which were so high that a man of average height could not see over them.

A network of tunnels were dug through the snow heaps and the trenches as well as the hills were numbered similar to those in the European theaters of war.

tell when it would be moved.

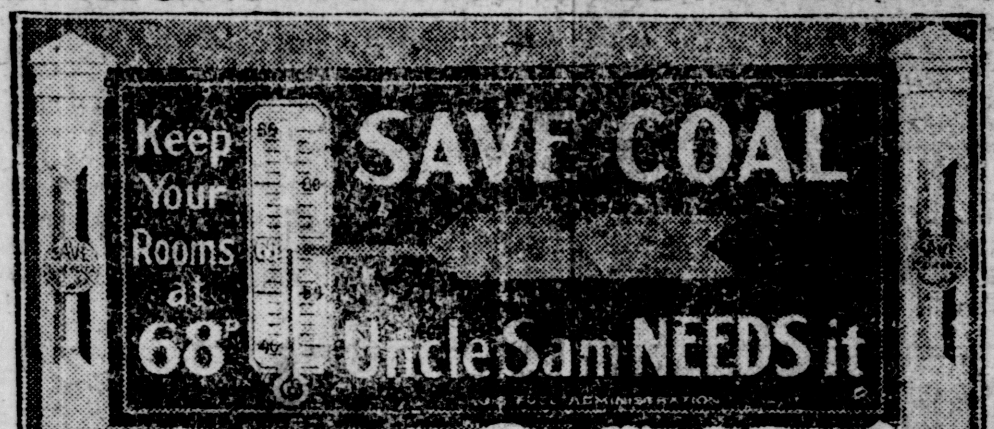

The car billed to Connersville was set off here on a C. I. & W. siding with a hot box. Last night scores of people were at the car taking the coal and the fuel administrator thought he had better take charge while there was some of the coal left.

Will Trennepohl, coal dealer, volunteered to handle the coal without profit, only his teams being paid for delivering. The coal was sold in 500 pound lots at \$5.25 a ton, the regular price. If this more than meets the cost of the car, which it may not do because many tons had been stolen, the money will be prorated to the purchasers.

"It will not be my policy," said the fuel administrator today, "to confiscate coal only as a last resort, because when coal is taken here, that much more suffering is caused elsewhere.

The general orders issued by the

UNCLE SAM'S FIRST FUEL CONSERVATION SIGN

Every American householder can help win the war by saving a shovelful of coal a day, according to the United States Fuel Administration. At the end of a year the saving would amount to fifteen million tons. This would keep five million people warm all winter. It would keep 7,500,000 soldiers warm all winter in continents. It would send a fleet of twenty-five battleships three thousand times across the Atlantic.

Schools In South Part County Close

Hacks Unable to Travel Over County Roads and Take Children to Buildings. Milroy and New Salem Schools Also Shut. Northern Part of County Not so Unfortunate.

Practically every school in the southern part of the county is closed today because of the inability of the school hacks to travel the roads where it is necessary for them to go to gather the students and teachers.

All of the Milroy schools were closed as well as those in New Salem. The new consolidated school in the Webb neighborhood was also forced to close in addition to all of the smaller schools in the country districts. Superintendent George stated, however, that they expected to resume operation tomorrow.

The conditions in the northern part of the county were somewhat better than those existing in the south. The Falmouth school hack succeeded in making the usual run and the Raleigh schools also held their usual classes although they were closed yesterday. The school at Mays was closed today because the principal, Charles Demumbrun, was called to this city for examination for the army.

administrator today provide that no coal shall be sold or delivered by dealers or any other persons to places of amusement or entertainment.

They provide: that no mercantile establishment or bank shall open before 9 a. m. except hotels, restaurants, groceries and meat markets. That all groceries shall close at four p. m. except Saturday.

That no mercantile establishments shall remain open later than ten p. m., Saturdays included.

That nothing in these orders shall be construed as restraining druggists or undertakers from opening in case of emergency.

That for the purpose of these orders barber shops, theaters and pool rooms are considered mercantile establishments.

That all electric lights in mercantile establishments shall be turned off at closing with the exception that one burglar light may be used.

That they are for the period of the present emergency and until further ordered.

The banks made plans today before the orders were issued to open at 9 a. m. and close at 3 p. m.

Continued on Page 2.

Automobile Snowed Under On Country Road Three Days Is Not Damaged.

Worrying about matters in which the elements are concerned is a waste of energy. That, at least, is the opinion of Dr. J. T. Paxton, who has a Rush county physician is an authority on weather.

Friday about midnight the doctor was called to the Glenwood neighborhood, and after caring for his patient he prepared to return home, but his automobile refused to move. After taking a general survey of the situation Dr. Paxton left his machine in the road and returned home on the traction car. Saturday the snow had entirely covered it, but despite the length of time the machine had been exposed, garage men were able to drive it to Glenwood yesterday and found that it had not been injured.

MANY BILLS TO STRENGTHEN WAR

Flood Senate As Republicans Caucus on Munitions Minister Measure and Efficiency Plans

BILL TO CHANGE DRAFT PLAN

Chamberlain Would Register Men Reaching 21 And do Away With Method Computing Draft

(By United Press.)

Washington, Jan. 15—While house republicans today prepared to caucus on the creation of a ministry of munitions and other war efficiency measures, the senate was flooded with bills to strengthen the military organization.

Among the bills is one by Chamberlain providing for immediate registration of men who have become 21 since June 5, while another provides doing away with the basis of computing draft quotas on the basis of citizens registered, about which widespread complaint has come from alien population.

Sweeping powers to compel food conservation in every American kitchen are giving the president in a measure introduced by Senator Pomerene. The bill is aimed at proprietors of hotels, restaurants and public eating houses but is broad enough to include domestic consumers.

At the same time Walter Gifford, director of the council of national defense was backing up the demand for a director of war industries.

Gifford's testimony before the senate military affairs committee agreed with that of Daniel Willard and Bernard Baruch, members of the council, who yesterday urged one man control for the army, purchase and navy shipping board.

Insurance of officers on American merchantmen traversing the war zone was made mandatory today by Secretary McAdoo, chairman of the war thrift insurance bureau.

RED TRIANGULARS REPORT

High School Boys Enlisted in Drive Turn in Pledges

The Red Triangular boys of the local high school who, several weeks ago, pledged themselves to raise ten dollars each toward the nation wide drive in which the high school students were participating, have lost no time in raising their "bit" toward the hundred thousand dollars. Nearly half of the boys here who enlisted in the drive have turned in the entire amount pledged while several others have raised at least half of that amount.

John Lewis and Omer Deweese reported their hundred per cent pledge Monday evening.

ORDERS ARREST OF 8 REGISTRANTS

County Army Selection Board Gives Names to Chief of Police Yakey Today

QUESTIONNAIRES NOT BACK

Twenty Registrants Called For Examination Today, But Many Can't Get Here

Registrant Walks From Andersonville To Be Examined For Army

Because he had received an order from the county conscription officials to appear for examination for army service today, Dora Gwinnup, of the Andersonville neighborhood walked from his home to the office of the examining physician Dr. Will S. Coleman, a distance of ten miles.

Gwinnup stated that to him a conscription order was not to be delayed because of zero weather and snow drifts, so when he found that the roads were in such a condition that they could be traveled by neither automobile nor horses, he "bundled up" and walked.

Four other men of conscription age who were on the list to appear for examination today came from the Blue Ridge neighborhood, a distance of fifteen miles in a Ford. The men armed themselves with shovels and said that every few minutes it was necessary for them to dig the machine out of a snow drift.

The arrest of eight registrants was ordered today by the county army selection board for failure to return their questionnaires in the specified time—seven days. They were placed in class one and their names handed to Chief of Police Yakey with the request that they be taken into custody and brought before the board.

The violators of this rule of the draft regulations are as follows:

Walter Garrison, Rushville.
Frank D. Seegars, Mays.
Homer Smith, Rushville.
Adam Grisko, Carthage.
Charles W. Levi, Rushville.
James Burrell, Jr., Jeffersonville, Ind.

Nelson Harper, Glenwood.

David Chappell, Milroy.

Once before the local board ordered the arrest of nine registrants. Three of them appeared and were classified, but the other six have not been apprehended.

Only a few questionnaires are to be returned yet. In every case an extension of time has been granted or some condition exists, of which the board is aware, which prevents meeting the requirements of the rules.

The third set of registrants was being examined today by Dr. W. S. Coleman, physician member of the board. Twenty were called, but only ten had appeared up until ten o'clock and several had called from different points in the county and said they would be unable to get here on account of the condition of the roads. Twenty more are called for examination tomorrow.

Several more cases have been sent to the district board, including questionnaires which were returned by the higher board for fuller answers. Most of the cases just sent are on appeal.

The local board classified fifty-four yesterday, placing only three in class one. This makes 374 placed in this class by the local board and 947 cases acted on.

Names of registrants classified yesterday and those sent to the district board will be found on page four.

GARDEN CAMPAIGN STARTED FOR 1918

Drive for Larger Production of Garden "Sass" Is Being Promoted
—Home Gardens Urged

STATE MEET IN MARCH

Every Force Asked to Take Part in Drive for Maximum Vegetable Production

Indianapolis, Ind., Jan. 15.—Indiana's state-wide war garden conference is set for March 8 and 9 at the assembly room, Claypool hotel, this city.

To bring about larger production of garden "sass" than was shown in 1917, and to provide for still better conservation of victory vegetables and patriotic foodstuffs produced in gardens it is planned to unite in conference and in the garden campaign for 1918 in Indiana all the agencies which took part in the war garden movement last year.

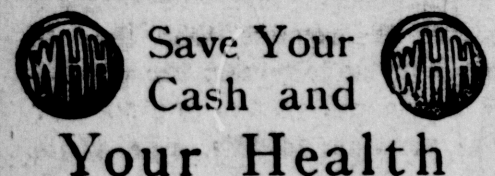

At a meeting, Jan. 9, in the office of Prof. G. I. Christie, State Food Director, a committee was named to arrange a program for the March conference. On this committee are the following: Z. M. Smith, Purdue University; Prof. L. Greene, head of the horticulture department of Purdue, and Arthur S. Hurrel, assistant superintendent of the Indianapolis city schools, vocational department.

The State Food committee, the State Council of Defense, Purdue university, the United States department of agriculture, the Indiana department of public instruction, the Patriotic Garden association of Indianapolis vocational teachers, the schools, city and town garden clubs and all other forces desiring to take active parts in an active garden campaign for 1918, will co-operate to make the state-wide war garden conference a success.

BUSINESS HOURS CUT; TWO CARS OF COAL SEIZED

Continued on Page 4
The *Indianapolis Republican* has only about ten days supply of coal. About three tons a week are required. For this reason the *Republican* will not begin business until 9 a. m. and will close at 5 p. m. until the crisis passes.

MILLER, BUTTON and COMPTON, Auctioneers.

JERUSALEM, THE HOLY CITY, TAKEN BY THE BRITISH

Especially gratifying to Christians and Jews alike, outside the central powers, was the news that Jerusalem had been captured by the British forces commanded by General Allenby. In the foreground of the photograph is one of the holy pools. The Mosque of Omar, or the Dome of the Rock, on Mount Moriah where the old Temple altar stood and where the sacrifices were made to God in Biblical days can be seen in the center of the photograph. The view shown is from the southern end of the old wall.

SORGHUM WILL BE PLANTED IN COUNTY

This Means Will be Employed to Overcome Sugar Shortage—Tap Maple Trees Another Way

MOLASSES USED FOR SUGAR

Sorghum will be planted in Rush county in great quantities in the spring if the requests of the state food administration are to be observed. Local farmers have been asked to raise this cereal grass at this time especially because of the shortage of sugar.

It has been pointed out by food conservation leaders that sorghum molasses can be used to take the place of sugar in cooking and that a number of syrups may be made from it instead of sugar as has been the custom when sugar was more plentiful.

Another manner of overcoming, at least to a certain extent, the sugar shortage in Rush county, is by tapping all of the maple trees that are available. There are thousands of maple trees in the various sugar camps through the county which can be used for making a great amount of sugar. A gallon of maple syrup when boiled down will make a pound of sugar and although it differs slightly from the white grains housewives have grown accustomed to use, it is pure and rich and will serve the purpose of the necessary sweet at least during the present shortage.

cess theater and bowling alleys, is very short on coal and has only a few days supply.

The Catholic church used a part of its coal supply to relieve suffering and turned over several tons to Will Trennepohl to be sold according to the present restrictions.

CIGARETTES COME AS TIMELY GIFT

Tobacco is Appreciated at Southern Camp Between Pay Days When Boys Are Broke

STOVES WORKING OVERTIME

"The carton of cigarettes came just in time as it is midway between pay days and needless to say most of the boys are broke," wrote Sergt. Guy Newman of Battery A, 139th F. A., Camp Shelby, Miss., to a friend here thanking him for his timely gift.

In speaking of the condition of the Rush county boys at the camp, Sergeant Newman said that the soldiers have all the necessities for winter comforts. "We are having real cold weather now," said Newman, "and it keeps our stoves working over time to keep us warm. We are not suffering for anything, however, as we have plenty to eat and enough blankets to keep us warm."

"Lieutenant Green and Lieutenant Pearsey are kept busy at the infirmary where they administer daily to the sick, the lame and the lazy. They have succeeded in making the infirmary a bright sanitary building and have ample assistance."

POISONED CORN IS FOUND IN PASTURES

Attempt to Poison Cattle is Reported to State Veterinarian—Paris Green Found

FARMERS ARE ON THE WATCH

(By United Press.)
Indianapolis, Ind., Jan. 15.—Reports of poisoning of live stock in various parts of the state have been reaching L. E. Northup, state veterinarian recently. The latest reports are from Morgan county.

Walter Leonard of Mooresville stated that his neighbors saw a stranger drive up and throw several ears of corn into a pasture where cattle were feeding. The corn was sent to the state and drug commissioner for examination.

A few days later Leonard found Paris Green scattered thickly over the ground in his hog pen. This was termed a crude attempt at poisoning by Northup as he said it was very hard to poison hogs with Paris green.

Northup warned all farmers to be on the watch for such attempts and report cases immediately to him or to local officers.

The body of Miss Mollie Sweetman, who died Sunday in Chicago, arrived here this morning and was taken to the home of Mr. and Mrs. William Dugan, 722 North Sexton street. The funeral services will be conducted at St. Mary's Catholic church tomorrow morning at nine o'clock with burial in Calvary cemetery.

LIVE STOCK MARKET IS AT A STANDSTILL

Only 500 Hogs Are Received in Indianapolis With the Result That There's No Selling

NO CATTLE OR SHEEP MARKET

Because of the severe cold weather making shipment next to impossible there was no live stock market in Indianapolis today.

Only 500 hogs were received and as a result there was no selling. Cattle receipts amounted to 150 with no offers. No sheep at all were received.

Corn prices were easier and oats held steady in Indianapolis, but no Chicago grain quotations were received because of bad wire communications.

PEACE NEGOTIATIONS DEADLOCKED TODAY

Sittings Are Adjourned When Central Powers Refuse to Evacuate Russian Territory

NO HOPE OF PEACE POPE HEAR

(By United Press.) Petrograd, Jan. 15.—Arrest of all members of the Roumanian legation here today caused a sensation among the diplomatic corps.

Rome, Jan. 15.—According to reliable vatican information today, Papal representatives to Austria and to Germany have informed Pope Benedict that there is no encouragement for peace at the present time.

Presumably the delegates reported on peace feelers which were put out by the vatican.

Amsterdam, Jan. 15.—The Russo-German peace negotiations were apparently deadlocked again today, according to dispatches received from Brest-Litovsk by way of Berlin. The German delegates insist on the central powers retaining grip on occupied territory in Russia.

Following refusal by the central powers to evacuate Courland, Lithuania and Riga the entire peace sitting adjourned.

Foreign Minister Trotsky demanded to know why there were no representatives of the people present and suggested they be invited.

NATIONAL PARKS MAY BE PASTURES

Hoover Suggests That National Parks Be Used for Pasturage to Increase Meat Supply

SUGGESTED TO STEARNS

(By United Press.) Estes Park, Colo., Jan. 15.—To increase the meat supply for war purposes, herds of sheep probably will gambol about the heretofore inviolate territory of the Rocky Mountain and Mesa Verde national parks, if a suggestion offered by Herbert Hoover to Thomas B. Stearns, state food administrator, proves practical. It is believed the permission of the government could be secured, and the Colorado mutton supply greatly increased, as the ungrazed national parks would furnish a luxuriant pasturage.

NOT RESULT OF REVERSES

Haig Not Recalled For This Reason Bonar Law States

(By United Press.) London, Jan. 15.—Chancellor Bonar Law denied in the house of commons this afternoon that Field Marshall Haig had been recalled as a result of the German success at Cambrai in November. Bonar Law detailed the report of the special commission of inquiry named to investigate the Cambrai setback. He declared the report showed the Germans did not surprise the British commander-in-chief who took all necessary steps.

TO RECRUIT MEN FOR THE ARTISAN SECTION

A. L. Stewart, County Enrolling Officer, to Take Men Not Subject to Draft

MUST BE OF MILITARY AGE

A. L. Stewart, county enrolling officer, has been asked by the Indiana public service reserve officer to enlist recruits from Rush county for the artisan section of the aviation department of the army. He has been asked to secure men from the military age, not subject to the draft.

The present demand for men in this department makes it necessary for Rush county to furnish at once its share of auto or gas engine men, auto and motor truck driver, blacksmith, cabinet workers, harness makers, general mechanics, lath hands, milling, planing and tool makers, house and sign painters, brick layers and iron workers.

This is the first important demand which the army department has made on the public reserve. A. L. Stewart has established recruiting headquarters in the sheriff's office where men desiring to enlist may call for a fuller explanation of the work.

NO LIMIT TO GUARD UNITS

Several Companies May be Formed in Each County

Indianapolis, Ind., Jan. 8.—In some quarters of the state an erroneous impression is abroad as to the number of companies of Liberty Guards that may be organized in a county, some asserting that only one or two companies are allowed in each county. This is a mistake the Indiana State Council of Defense announces; as many companies will be organized as there are communities that can raise a quota of 50 or more men. Some counties are now organizing four or five companies. In Marion County it is hoped a full regiment of twelve companies will be enrolled.

TODAY'S HOOSIER BRIEF

Terre Haute, Ind., Jan. 15.—J. M. Christy, has donated his 200 acre farm near Shelbyville to the Rotary Club to further their plan of training boys between the ages of 16 and 21 years, in farm work. The boys will be sent to the farm in squads of sixteen each.

A marriage license has been issued to Miss Nelle Dudgeon, daughter of Mrs. Della Dudgeon and Walter May, son of Mrs. Margarite Clark, both of this city.

TAKE NOTICE

Until further notice commencing Thursday morning January 17th the Banks of Rushville will open for business at nine o'clock instead of eight o'clock. This action was taken at the request of Samuel L. Trabue Fuel Administrator.

The Rushville National Bank. The Rush County National Bank. The Peoples National Bank. The Peoples Loan & Trust Co. The Farmers Trust Co.

GERMANS BOMBARD YARMOUTH FROM SEA

Twenty Shells Hurlled Into Port, Killing Three and Injuring Ten—No Serious Damage

MAY HAVE BEEN A SUBMARINE

(By United Press.) London, Jan. 15.—Yarmouth was bombarded from the sea during the night.

Twenty shells were hurled into the port. Three were killed and ten injured. The damage was not serious. The bombardment lasted five minutes.

The Germans carried out their bombardment with careful system. The first shell fired was a star shell, the light from which vividly showed the town below it. Then came the salvo of shells. The German craft was believed to be one of the largest and newest types of German submarines or else a cruiser.

SICKNESS IS A MINIMUM

Less Than Usual For Kind of Weather County Has Had

Despite the extremely cold weather and the lack of fuel in the city local physicians stated today that there has been less sickness in the city during this extremely cold weather than during any cold snap on record.

A few cases of pneumonia are being treated but the season's usual epidemic of lagrippe, so far at least, has been very slight in the city although there has been several cases in the northern part of the county. Colds caused from exposure, are being treated by most of the physicians but the usual results, lagrippe and pneumonia, have not developed.

NEED 1800 CARS OF COAL

Indiana Requires This Much to Relieve Situation

(By United Press.)

Indianapolis, Ind., Jan. 15.—Eighteen hundred cars of coal are needed immediately in Indiana to relieve the situation, according to figures compiled by the fuel administration. Requests for immediate relief from 15 counties totaled more than 400 cars. Transportation conditions tied up by the heavy snowfall of the last three days and the closing of mines due to the cold makes the situation the gravest of the year.

All Indianapolis schools closed for the remainder of the week on account of the shortage.

APPOINTMENT PROBABLE

Washington, Jan. 15.—Appointment of R. H. Ashton, vice-president of the Chicago and Northwestern railroad to a high post in Director-general McAdoo's railroad administration was forecasted this afternoon when it was learned he had been summoned to Washington.

Stacey Hinkle, son of Mr. and Mrs. Charles Hinkle of this city who enlisted in the aerial squadron at Pittsburgh a few weeks ago is attending the school of military aeronautics at Princeton, N. J. He is among the student officers at the military school and writes that the camp is located on the campus of Princeton university.

TO LIMIT SIZE OF PAPERS

(By United Press.) Washington, Jan. 15.—The senate this afternoon adopted the Jones amendment to the Crist paper bill limiting newspapers to 16 pages daily or Sunday from 30 days after the passage of the bill.

FAMILY BURNED TO DEATH

(By United Press.) Marion, O., Jan. 15.—Chris Houk, his wife and three small children were burned to death in their home here today. A defective flue was the cause of the fire.

For Itching Torture

There is one remedy that seldom fails to stop itching torture and relieve skin irritation and that makes the skin soft, clear and healthy.

Any druggist can supply you with zemo, which generally overcomes all skin diseases. Acne, eczema, itch, pimples, rashes, blackheads, in most cases give way to zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 35c; an extra large bottle, \$1.00. It will not stain, is not greasy or sticky and is positively safe for tender, sensitive skins.

Woman's Friend Power Washer

IN THE NEW STYLE DOUBLE OR SINGLE TUB

When you buy a Power Washing Machine you always want to buy what you think is the best and if you try the

Woman's Friend

you will be convinced for yourself. It will wash the clothes better than any other power washer on the market and has two stationary wringers which make it stronger and more durable, and with the small end of the tub at the bottom enables you to wash a small amount of clothes as well as a large amount and does not require as much water with the small end of the tub at the bottom. Do not buy a Power Washer until you have seen the WOMAN'S FRIEND.

**Hysterical Economy**

"Hysterical economy," in the opinion of S. W. Strauss, president of the American Society for Thrift, will do more harm than it will good. He urges, and justly so, that legitimate business have full sway, for without business the country's credit would be lost and its cause in the war greatly damaged.

"The tendency on the part of many of our citizens," Mr. Strauss said, "to practice indiscriminate economy at this time is regrettable because of the danger of injustice to legitimate business enterprises, without any benefit therefrom to our government in winning the war. Furthermore, it is regrettable because of the possibility of fostering a popular misunderstanding of the true meaning of thrift."

This condition, if it were to continue, would tend to discount the valuable lessons in the sensible practices of thrift which we as individuals and as a nation must learn from the war.

We must bear in mind that money is just as essential in winning the war as food, ammunition and guns. Any condition, therefore, which tends to halt business, transacted along conservative lines, and stop the flow of money through the customary channels, saps our financial power. Money, lying dormant, is cold metal—nothing more. Money is merely a symbol of wealth. It has no value whatever excepting when in circulation or when used as the basis of credit. Real wealth is only that which money can buy.

We must differentiate between the elimination of waste and the withholding of money from legitimate business. We must remember that what is one man's luxury is another man's necessity, jointly creating a transaction on which business and employment depend. This statement does not, of course, imply encouragement of extravagance. In the practice of true thrift now or at any time, there is no waste. Especially now we must liberally subscribe and to our greatest ability to the Liberty Loans and war charities, but we must remember also that we will gain nothing as a nation in the encouragement of false economy hoarding and selfishness. American business constitutes one of the strongest assets of the allied cause. Anything like a financial panic in America now would be a real disaster because the government would be placed at a tremendous disadvantage in securing money with which to finance itself and our allies.

Uneasy Lies the Crown

Righteous indignation has been aroused by what the senate military affairs committee has shown to be the condition in the war department. Senators in touch with the situation will be content with nothing less than Secretary of War Baker's resignation, believing him to be mainly responsible for the situation.

Not much could be expected of a member of the president's cabinet who likened Washington's soldiers at Valley Forge to the murdering marauding Mexican bandits. This placed Mr. Baker before the country

BUILDING OF NEW POSTOFFICE DELAYED

Construction of Federal Building at Shelbyville Held up Because of War

LETTER TO REP. R. N. ELLIOTT

(By W. R. POUNDSTONE)

Washington, Jan. 15.—To "help win the war" the people of Shelbyville, Ind., have been asked by William G. McAdoo, secretary of the treasury, to accept without protest the secretary's decision to indefinitely delay the construction of a new postoffice building in that city, authorized some time ago.

Secretary McAdoo addresses his plea to the citizens of Shelbyville in a letter to Rep. Richard N. Elliott of the Sixth Indiana district.

The secretary of the treasury recently issued an order stating that he would not authorize the construction of any federal public buildings during the period of the war.

Mr. McAdoo makes it plain in his letter to Rep. Elliott that the government will require all available funds to carry on the war to a successful conclusion.

SERVICE FLAG FOR POSEY

Dedicated at Patriotic Service in Arlington in Two Weeks

The patriotic community service which was to be held in the Arlington Methodist church Sunday evening was postponed on account of the weather conditions and will be held Sunday evening January 27. The feature of the program will be the dedication of a township service flag honoring the boys of that vicinity who have entered the service. So far there are twenty stars in the flag, but counting several boys in the township who expect to leave during the next few days it is expected that the number will be increased by several names before the service is held.

in a bad light and the recent investigation has served to prove what such a statement indicated about the man.

A writer in a current issue of a magazine, who is making investigations in Washington, analyzes the war department. He calls a spade a spade. He says the senate will fall short of its duty if its investigation does not result in a thorough reorganization of the war department. It is now without a comprehensive plan of action and without authoritative heads who know what should be done to make our war efforts most effective. A mere shifting of generals and of subordinates would accomplish nothing. "They would be," says this writer, "so many new flies caught on the sticky surface, the glue, of our present War Department organization, disorganization, horrible disorganization, where they will buzz, where they will struggle, where they will succumb, failures against Germany."

The Russian Bolsheviks seem to have been handed a lemon in the German peace proposals. The Kaiser's government modestly demanded control of the Russian wheat market for a period of fifteen years, that she retain all Russian territory now occupied by her troops, and that all German-made goods be imported into Russia duty free. Doubtless there were a few minor concessions she would have also, but she hoped to have no trouble in securing these when she had her victim securely tied. But even a Bolshevik has glimmers of reason and the proposition was not received with enthusiasm.

The kaiser is quoted as saying that all he wants is justice, and the allied world is of one mind in the determination to see that he gets it—and in full measure. The probabilities are, however, that his kaiserlyship won't recognize the article when he sees it coming.

TAG DAY OBSERVED

IN SCHOOLS HERE

Pupils Given Tags Bearing Words.
"Save That Shovelful of Coal a Day For Uncle Sam."

TO BE TIED TO SHOVEL HANDLE

On Back of Tags Are Many Suggestions For Saving Coal, Offered By Fuel Administration.

"Tag Day" was observed in the public schools recently when tags bearing "Save that shovelful of coal a day for Uncle Sam" were given to each pupil. The tags are tied on the handle of the shovel and are intended to be a constant reminder of the owner's patriotic duty to save fuel. On the back of the tags are several suggestions on saving coal given out by the United States Fuel Administration.

They are: Cover furnace and pipes with asbestos or other insulation; also weather strip your windows or stuff cracks with cotton. Keep your rooms at 68 degrees, best heat for health. Heat only the rooms you use all the time.

Test your ashes by sifting. If you find much good coal, there is something wrong with your heater. See a furnace expert.

Write to the maker of your furnace or stove for practical directions for running economically. Save gas and electric light as much as possible—this will save coal for the nation.

The universal tag day for fuel conservation will be observed sometime in the near future. On this day, the school children will co-operate further in the movement by distributing these tags to homes where there are no school children.

FAIRVIEW GAME OFF

Because of the weather supplemented by the illness of one of the players, the Fairview Athletic association has postponed the basketball game for Wednesday evening, January 16 when they were scheduled to meet the Em-Roes who have the state basketball championship. The date for the game will be announced later.

Nervous Wreck

Now Live Wire
Makes Everybody Sit Up And Take Notice

One of our big league ball players had been going back for some time, no matter how hard he tried he could not get his old time Pep and Ginger into the game, it was up hill work all the time. He was one of these honest hard working fellows and it finally got his "goat", his nerves went bad, he commenced to run down, could not eat or sleep and kept steadily slipping. Doctors and medicines were of no help.

One of his many admirers said to him, "Why not try Phosphated Iron, everybody is boosting it."
Grasping at the last straw, the poor fellow took a try at it. The way he came back was an "eye opener," he was there n every department of the games, his nerves were like iron, he could hit the ball and was no time getting back to the three hundred mark, while his base running and fielding were great.

Discussing the matter with our reporter he said, "Would you believe it, I could feel the Iron charging my blood with health and strength, while the way the Phosphates steadied and renewed my nerve force was almost too good to believe. Phosphated Iron took hold of me right from the start and sure did make a new man of me, and you can bet I carry a good supply on all my trips."

Doctors will tell you that you must have plenty of Iron and Phosphates in your system if you want pure red blood and steady nerves of Iron. Everyone who is run down, tired and has that "all in" feeling should try Phosphated Iron and you will never be without it again.

Special Notice—To insure physicians and patients receiving the genuine Phosphated Iron we have put up in capsules only so do not allow dealers to substitute pills or tablets, insist on the genuine in capsules only.—PITMAN & WILSON and leading druggists everywhere, Rushville, Ind. (Adv.)

MEN'S STYLES CHANGE

BECAUSE OF THE WAR

Traveling Men Through City State That Cotton is Being Mixed With Wool—Styles Simple

GOVERNMENT SETS STYLES

Men's clothing, in styles and material, is being affected by the war. All of the changes are being made with the conservation of wool in view, that the Sammies may have their uniforms promptly and that the uniforms be made of the best grade of wool. Traveling Salesmen through the city state that cotton is being added to the wool suits, to the silk shirts and to some of the ties even, that wool may be conserved. The high price of wool is another reason for this change in materials.

Some time ago, the government ordered men's tailoring houses to make garments in the most conservative and economical lines. For this reason, "pinchback" coats and belts on coats are being omitted and the coats are being made on simple lines.

OYSTERS OFF LOCAL MARKET FOR A TIME

Oyster Beds in East Are Completely Frozen Over and Have Been For Three Weeks Time

LOCAL STANDS HAVE A FEW

Oysters are practically off of the local market and from all indications will be for some time. The oyster beds in the east have been frozen up for three or four weeks and for this reason none has been shipped from the eastern markets. A few have been sold in this city during the past week and they have been procured from Indianapolis, where they have either been kept in store or shipped from other than the eastern markets.

Most of the local oyster stands receive shipments usually from Baltimore or from points in New England. One restaurant alone receives twenty-five gallons weekly, but during the past few weeks has had a hard time getting any. None of the markets have been able to meet the demand of their consumers. Warmer weather, when the oyster beds will thaw, is the only solution to the shortage.

MINERS TO DISCUSS INCREASE IN WAGES

United Mine Workers of America Convene in Indianapolis Monday—Increase Proposed

PRES. GOMPERS TO SPEAK

(By United Press.)

Indianapolis, Ind., Jan. 15.—The bi-ennial convention of the United Mine Workers of America opened here today with about 1,500 delegates in attendance. Every local is represented.

During the convention, vote will be taken on the 20 per cent wage increases agreed upon at a conference between Fuel Director H. A. Garfield, mine operators and union men.

"There is no doubt but that the agreement will be ratified," said William Green, secretary of the union today.

Samuel Gompers, president of the American Federation of Labor and John Mitchell, former president of the United Mine workers, will make the principal addresses.

The convention will be in session for about two weeks.

SIXTEEN KILLED IN WRECK

Calvert, Texas, Jan. 15.—A north-bound passenger train on the Houston and Texas Central railroad slipped an open switch at Hammond, killing 16 persons and injuring 14 others. The second coach, a chair car, was mashed into splinters. The dead include four soldiers, two babies, seven men and three women.

I am wholesaling beef and if you have any butcher stuff to sell, call on me. Highest price paid for same. H. A. Kramer. 259tf.

Was Feeling All Run Down.

Symptoms of on-coming kidney trouble deserve prompt attention, for neglect invites serious illness. Louis Backner, Somerset, Va., writes: "I was feeling all run down; tired, with pains in my back. After taking Foley Kidney Pills I felt like a new man." Backache, rheumatic pains, stiff joints, sore muscles, swollen ankles, puffiness under eyes, and sleep-disturbing bladder ailments yield quickly to this time-tried remedy. A boon to middle-aged men and women. F. B. Johnson.

Rheumatic Aches

Drive them out with Sloan's Liniment, the quick-acting, soothing liniment that penetrates without rubbing and relieves the pain. So much cleaner than musky plasters or ointments; it does not stain the skin or clog the pores. Always have a bottle in the house for the aches and pains of rheumatism, cold, lumbago, strains, sprains, stiff joints and all muscle soreness. Generous size bottles at all druggists.

OUR GOVERNMENT FOOD CONTROL EXPERT SAYS "DO NOT WASTE YOUR FOOD."

Thousands Take Pepsinco Because the Druggist Tells Them It Is the Best for All Stomach Ailments.

Many persons are using a new system of food digestion, not only because our government's food expert says that we shall conserve the food, but, also, because the high price of food stuffs compels retrenchment.

Pepsinco, this systematic method of digestion is inexpensive and can always be relied upon. It is small and powerful. One little tablet will digest an ordinary meal. Everything will be assimilated. The meal will give you strength. Your entire system will undergo a change for the better, once you start this treatment.

Stop at the drug store today and get a small package of Pepsinco, the perfect digestant and make every grain of food do its duty. Fully guaranteed.

The meeting of the Ladies Musical which was to have been held yesterday at the court house was postponed because of the inclemency of the weather. The next meeting will be held on the regular date, January 28, in the sheriff's office and an interesting and enjoyable program has been arranged. Mrs. Parke will be in charge of the program which will be a Symphony program. The time of the meeting has been changed from afternoon until evening and the ladies have planned that this meeting shall be a guest meeting. However, definite announcement to that effect will be made later.

The Bible Study classes of the Epworth League met last night with Miss Dorothy Mulno at her home in North Jackson street. Fifteen members were present for the interesting discussion which was led by Miss Macey. The next meeting will be held next Monday night with Miss Katherine Guffin. Miss Macey will be the leader for this meeting as well as for the remaining lessons of the series which the class is studying, which deal with the life of Christ.

The home of Miss Anna Amos in North Perkins street was the scene of a pleasant evening party last Friday evening when assisted by Miss Mildred Davis, she entertained several friends. The guests included the Misses Margaret Gardner, Martha Ruhlman, Grace Schaffer and Hershel Bates, Orville Evans and George Ruhlman of this city and Private Thomas McCollins of Camp Taylor, Ky.

Twelve members of the Royal Neighbors were present at the regular meeting which was held at the Modern Woodmen hall last night. At the conclusion of the business meeting a social hour was held and a delicious one course luncheon was served. The next meeting will be held in two weeks at which the new officers will be installed.

Mr. and Mrs. Willard Amos entertained the following guests at a pitch-in dinner last night at their home in North Perkins street: Mr. and Mrs. A. L. Stewart, Mr. and Mrs. O. M. Harton, William Inlow and Miss Lucy Inlow and A. L. Winship.

The current event meeting of the Monday Study Club of Milroy which was to have been held yesterday was postponed. The next regular meeting of the club will be held Monday, January 21, with Mrs. Dora Jackman.

The regular meeting of the D. A. R. which was to have been held Thursday has been postponed indefinitely.

Mrs. Charles Frazee will entertain the five hundred club at her home in North Main street Wednesday afternoon.

Mrs. Stella Davis of Arlington who has been seriously ill with pneumonia for several days, is improving.

The Embroidery Club of Milroy will meet Wednesday afternoon with Mrs. William Bosley.

The Juanita club will meet tomorrow with Mrs. James Moore.

MUST STAY IN QUARANTINE

Health Officer Can't Get to Lucas Home Because of Weather

Because Dr. E. I. Wooden, county health official, has been unable to go far into the country on account of the heavy snow drifts, Mrs. John Lucas and daughter who were both being treated for diphtheria for a few weeks, are still in quarantine. The patients reside about six miles northwest of the city and will be forced to remain in quarantine until the weather conditions will permit the county health physician to fumigate the home and release them.

Registration of Women to Begin in April

Rush County Will be Thoroughly Organized and Purpose of Drive Will be Understood Before it is Started. Some Misunderstanding When Attempted Before.

Rush county women will be given an opportunity to understand fully the purpose of the registration of women through the county chairman Mrs. Louis C. Lambert, before the drive which will be made here early in April, as a part of the national campaign, is started.

"Local women did not understand the purpose of the registration when an attempt to make the drive was started last summer," said Mrs. Lambert. "Most of them were under the impression that in signing one of the registration cards, they were binding themselves to perform a task which would be utterly impossible."

A number of preliminary meetings will be held through the county before the campaign is launched to explain fully the real meaning of the registration which is solely to learn the amount of woman power in the country.

Previous attempts to get women's signatures to the registration cards have been made through the state defense council. The drive for which the preparations are now being made, however, is a nation wide movement and every county in every state in the union will be thoroughly canvassed.

A meeting of the county registration chairmen and the women members of the defense council is being arranged for and will be held in Indianapolis before the close of the present month. State and national defense and registration leaders will conduct the meeting and will explain fully the registration movement and the lines along which the county officials are to conduct their campaign.

The campaign will start in Rush county, April 19 and will continue for ten days. Under the supervision of Mrs. Lambert, the township chairmen of the war work will conduct the registration in their various townships.

SENATOR WATSON TO VOTE FOR SUFFRAGE

Letter Received by Miss Mary Sleeth President of the Local Franchise League

ELLIOTT VOTED FOR THE BILL

Senator James E. Watson will vote for the suffrage amendment and Congressman Richard Elliott has already done so, according to the letter received by Miss Mary Sleeth, president of the local Franchise League, from Senator Watson in answer to the petition sent from the leagues of this district to Senators Watson and New. The letter reads "I have your letter and petitions. I shall vote for suffrage and so will Dick Elliott."

The petitions were a part of the suffrage drive by the Franchise League of the state and men and women from all over the district had signed them. Hundreds of names had been signed, many of them by Rush county persons. Their bulk was an idea to the sentiment of a number of the people of the state.

ROY GUFFIN DIES

Mrs. Sarah Guffin received word this morning that her nephew Roy Guffin of Indianapolis died last night at nine-thirty after an illness of three days. He was the son of the late Andrew Guffin and lived in Rushville when he was a child. The announcement of the funeral will be published in tonight's Indianapolis News.

Miss Alta Enos who has been seriously ill with pneumonia is improving.

SEVERAL WAYS TO SAVE SUGAR-WHICH IS YOUR WAY?

To Do Their Part to Help Win The War

Colored Women Form Red Cross Auxiliary And Are Given Use of Room in Graham School Building. Instructors Will be Sent to Teach Correct Methods of Sewing.

No one has paid much attention to what the colored women of the county are preparing to do to help win the war but they are doing their share, nevertheless.

The executive committee of the county chapter of the Red Cross, in an answer to an appeal made by the colored auxiliary which is being formed, asked permission from the school board that the colored women be given the use of one of the vacant rooms in a school building to use for a headquarters. The request was granted and one of the vacant rooms on the second floor of the Graham Annex was put at their disposal.

Because the building is heated well and is close to the homes of most of the women it will be an ideal place for them to do Red Cross work. The executive committee is assisting the auxiliary in every manner possible to get their organization completed and as soon as this is done will install machines and send instructors to the new headquarters at all of the meetings in order that the women may learn the correct methods of sewing.

The women will use their headquarters two or three afternoons in each week when sewing and knitting

Doctors Fail

"Terrible case of Eczema—contracted when a mere boy—fought disease for ten years, with half dozen specialists. Both legs in terrible condition. Almost a nervous wreck. It took just 8 bottles to clear up this disease." This is the late testimony of a prominent newspaper man. His name and his remarkable story in full on request. We have seen so many other cures with this marvelous liquid wash that we freely offer you a bottle on our personal guarantee. Try it today.

HEALTH

Did you ever stop and consider how much more prevalent the ordinary contagious diseases, such as whooping cough, measles, diphtheria, scarlet fever, etc., are during the last semester of the school year?

Is there not a very close connection between this fact and the further fact that school garments, such as dark woolen suits and dresses, coats, overcoats and cloaks are often worn every day, week after week and month after month without being thoroughly cleansed and sterilized?

You should send all these garments at reasonable intervals to be cleaned, pressed and repaired. Such cleansing as we give them is the best health insurance you can secure for school children.

SIX PAGES TODAY

Business Hours Cut; Two Cars are Seized

One Load of Coal Confiscated Goes to County and Other Is Sold To Consumers In 500 Pound Lots. With Few Exceptions No Stores Will Open Until 9:00 A. M. Groceries Will Open at 7:00 A. M. and Close at 4:00 P. M.

ORDER APPLIES TO THE WHOLE COUNTY

Mail Service and Traffic Does Not Improve Following Heaviest Snow of Winter. Interurban Service Abandoned And no Mail Reaches the City. Continued Cold Tonight and Warmer Tomorrow.

The county fuel administrator, S. L. Trabue, today issued orders restricting business hours as a fuel conservation measure and confiscated two car loads of coal, one of which was bound for Connersville and the other for Fort Wayne. One car was sold to consumers today in 500 pound lots, and the other car went to the court house and jail heating plant, which would have had to close down tonight or in the morning. Restriction of business hours will become effective Thursday, and apply to the whole county. Conditions were no better than yesterday. Mail service and rail traffic were not improved, and the condition of the country roads was worse by reason of the heavy snow which fell last night. The snowfall was the heaviest of the winter. It was estimated at ten inches, and coming on top of that which came in with the blizzard last Friday and Saturday, made the going under foot extremely difficult.

Rushville was as badly isolated today as last Saturday. For the third day the rural mail carriers were idle and a few farmers who could plow through the snow came in after the mail. One train went east this morning on the C. I. & W. railroad but carried no mail. Word was received at the local offices of the railroad that the early morning mail train from Chicago was being run over the Big Four and that as soon as it reached Indianapolis, mail for this division would be started.

The Indianapolis & Cincinnati Traction company's interurban service was interrupted again today and no cars were being run. Every effort was being made to clear the tracks so that service could be resumed.

Snow was piled ten feet high on the streets in the business district. Merchants attempted to make drive-ways up to their stores. The city endeavored to haul the snow off the downtown streets, but could find no men who would work. Snowplows were started on the sidewalks at two o'clock this morning so that early morning pedestrians could get to their work.

Schools in every part of the county have been interrupted. Practically none was open in the southern part of the county today, due to the inability of hack drivers to get over the roads. The northern part of the county was in better shape. During the present emergency city schools will be closed early and no meetings whatever will be held in the buildings after school hours so as to save as much fuel as possible. The grades were to close at 3 p. m. today and a large number of children were

UNCLE SAM'S FIRST FUEL CONSERVATION SIGN

Every American householder can help win the war by saving a shovelful of coal a day, according to the United States Fuel Administration. At the end of a year the saving would amount to fifteen million tons. This would keep five million people warm all winter. It would keep 7,500,000 soldiers warm all winter in concentration camps. It would send a fleet of twenty-five battleships three thousand times across the Atlantic.

It is hereby ordered:—

1. That no coal shall be sold or delivered by any dealer or other person to any place of amusement or entertainment.
2. That no mercantile house or bank, except hotels, restaurants, grocery stores and meat markets shall be opened before nine o'clock A. M.
3. That no grocery store shall be opened before seven o'clock A. M. or remain open after four o'clock P. M. except on Saturday night.
4. That no mercantile house shall remain open after ten o'clock P. M., Saturdays included.
5. That no mercantile house or bank shall be lighted after closing hours except that one burglar light will be permitted at night.

For the purposes hereof, theatres, confectioneries, barber shops, pool rooms, cigar stores and bowling alleys are considered mercantile houses.

This order applies to the entire County of Rush and shall be in full force and effect from January 17, 1918, during the present emergency, and until modified or rescinded.

Witness my name this 15th day of January, 1918.

SAMUEL L. TRABUE,
Fuel Administrator, Rush County.

here today because the Benson delivery system had not attempted to make any deliveries up to noon. It was planned to start out with two wagons, each drawn by four horses, at two o'clock this afternoon and make as many deliveries as possible. Today was much colder than yesterday and fair and continued cold weather is predicted for tonight, with colder weather in the northeast part of the state. Increasing cloudiness with warmer weather and probably snow is forecast for tomorrow. The mercury got very close to zero last night and was never more than ten above today, according to street thermometers. Wire communication with Elwood Kirkwood of Maury county weather observed, was broken today and the official temperature could not be learned.

The car of coal confiscated for the county heating plant was slack and the fuel administrator thought that it could not be used in stoves. A car of coal which has been ordered through the fuel administration for the county plant will be sold to consumers when it arrives. The threatened closing of the court house is put off temporarily by the confiscation of the car of coal. The administrator thought it advisable to let the county have the coal since the court house was being used as a relief station.

The car was consigned to the Fort Wayne rolling mills, which is making government orders. It was set off on the siding at the I. E. & W. yesterday, but the fuel administrator hesitated about confiscating it because it went to a plant engaged on government orders. He conferred with the state fuel administrator who said to take it since it was not being used by the government. Because the I. E. & W. could not

Young Men Practice Trench Digging in Snow Anticipating The Future.

A cadet training school for young men who apparently believe their trench digging days are near was started in the downtown districts of the city today. The clearing off of the sidewalks and the streets made mountainous snow banks at the side of the walks some of which were so high that a man of average height could not see over them.

A network of tunnels were dug through the snow heaps and the trenches as well as the hills were numbered similar to those in the European theaters of war.

tell when it would be moved.

The car billed to Connersville was set off here on a C. I. & W. siding with a hot box. Last night scores of people were at the car taking the coal and the fuel administrator thought he had better take charge while there was some of the coal left.

Will Trennepohl, coal dealer, volunteered to handle the coal without profit, only his teams being paid for delivering. The coal was sold in 500 pound lots at \$3.25 a ton, the regular price. If this more than meets the cost of the car, which it may not do because many tons had been stolen, the money will be prorated to the purchasers.

"It will not be my policy," said the fuel administrator today, "to confiscate coal only as a last resort, because when coal is taken here, that much more suffering is caused elsewhere."

Schools In South Part County Close

Hacks Unable to Travel Over County Roads and Take Children to Buildings. Milroy and New Salem Schools Also Shut. Northern Part of County Not so Unfortunate.

Practically every school in the southern part of the county is closed today because of the inability of the school hacks to travel the roads where it is necessary for them to go to gather the students and teachers. All of the Milroy schools were closed as well as those in New Salem. The new consolidated school in the Webb neighborhood was also forced to close in addition to all of the smaller schools in the country districts. Superintendent George stated, however, that they expected to resume operation tomorrow.

The conditions in the northern part of the county were somewhat better than those existing in the south. The Falmouth school hack succeeded in making the usual run and the Raleigh schools also held their usual classes, although they were closed yesterday. The school at Mays was closed today because the principal, Charles Deumbrun, was called to this city for examination for the army.

administrator today provide that no coal shall be sold or delivered by dealers or any other persons to places of amusement or entertainment.

They provide that no mercantile establishment or bank shall open before 9 a. m. except hotels, restaurants, groceries and meat markets.

That all groceries shall close at four p. m. except Saturday.

That no mercantile establishments shall remain open later than ten p. m., Saturdays included.

That nothing in these orders shall be construed as restraining drug-gists or undertakers from opening in case of emergency.

That for the purpose of these orders barber shops, theaters and pool rooms are considered mercantile establishments.

That all electric lights in mercantile establishments shall be turned off at closing with the exception that one burglar light may be used.

That they are for the period of the present emergency and until further ordered.

Automobile Snowed Under On Country Road Three Days Is Not Damaged.

Worrying about matters in which the elements are concerned is a waste of energy. That, at least, is the opinion of Dr. J. T. Paxton, who has a Rush county physician is an authority on weather.

Friday about midnight the doctor was called to the Glenwood neighborhood, and after caring for his patient he prepared to return home, but his automobile refused to move. After taking a general survey of the situation Dr. Paxton left his machine in the road and returned home on the traction car. Saturday the snow had entirely covered it, but despite the length of time the machine had been exposed, garage men were able to drive it to Glenwood yesterday and found that it had not been injured.

MANY BILLS TO STRENGTHEN WAR

Flood Senate As Republicans Caucus on Munitions Minister Measure and Efficiency Plans

BILL TO CHANGE DRAFT PLAN
Chamberlain Would Register Men Reaching 21 And do Away With Method Computing Draft

(By United Press.)

Washington, Jan. 15—While house republicans today prepared to caucus on the creation of a ministry of munitions and other war efficiency measures, the senate was flooded with bills to strengthen the military organization.

Among the bills is one by Chamberlain providing for immediate registration of men who have become 21 since June 5, while another provides doing away with the basis of computing draft quotas on the basis of citizens registered, about which widespread complaint has come from alien population.

Sweeping powers to compel food conservation in every American kitchen are giving the president in a measure introduced by Senator Pomerene. The bill is aimed at proprietors of hotels, restaurants and public eating houses, but is broad enough to include domestic consumers.

At the same time Walter Gifford, director of the council of national defense was backing up the demand for a director of war industries.

Gifford's testimony before the senate military affairs committee agreed with that of Daniel Willard and Bernard Baruch, members of the council, who yesterday urged one man control for the army purchase and navy shipping board.

Insurance of officers on American merchantmen traversing the war zone was made mandatory today by Secretary McAdoo, chairman of the war thrift insurance bureau.

RED TRIANGULARS REPORT

High School Boys Enlisted in Drive Turn in Pledges

The Red Triangular boys of the local high school who several weeks ago pledged themselves to raise ten dollars each toward the nation wide drive in which the high school students were participating, have lost no time in raising their "bit" toward the hundred thousand dollars. Nearly half of the boys here who enlisted in the drive have turned in the entire amount pledged while several others have raised at least half of their amount. The boys are now being organized into teams to open the drive in the coming week.

ORDERS ARREST OF 8 REGISTRANTS

County Army Selection Board Gives Names to Chief of Police Yakey Today

QUESTIONNAIRES NOT BACK

Twenty Registrants Called For Examination Today, But Many Can't Get Here

Registrant Walks From Andersonville To Be Examined For Army

Because he had received an order from the county conscription officials to appear for examination for army service today, Dora Gwinup, of the Andersonville neighborhood, walked from his home to the office of the examining physician Dr. Will S. Coleman, a distance of ten miles.

Gwinup stated that to him a conscription order was not to be delayed because of zero weather and snow drifts, so when he found that the roads were in such a condition that they could be traveled by neither automobile nor horses, he "bundled up" and walked.

Four other men of conscription age who were on the list to appear for examination today came from the Blue Ridge neighborhood, a distance of fifteen miles in a Ford. The men armed themselves with shovels and said that every few minutes it was necessary for them to dig the machine out of a snow drift.

The arrest of eight registrants was ordered today by the county army selection board for failure to return their questionnaires in the specified time—seven days. They were placed in class one and their names handed to Chief of Police Yakey with the request that they be taken into custody and brought before the board.

The violators of this rule of the draft regulations are as follows:

Walter Garrison, Rushville.
Frank D. Seegars, Mays.
Homer Smith, Rushville.
Adam Grisko, Carthage.
Charles W. Levi, Rushville.
James Burrell, Jr., Jeffersonville, Ind.

Nelson Harper, Glenwood.
David Chappell, Milroy.
Once before the local board ordered the arrest of nine registrants. Three of them appeared and were classified, but the other six have not been apprehended.

Only a few questionnaires are to be returned yet. In every case an extension of time has been granted, or some condition exists, of which the board is aware, which prevents meeting the requirements of the rules.

The third set of registrants was being examined today by Dr. W. S. Coleman, physician member of the board. Twenty were called, but only ten had appeared up until ten o'clock and several had called from different points in the county and said they would be unable to get here on account of the condition of the roads. Twenty more are called for examination tomorrow.

Several more cases have been sent to the district board, including questionnaires which were returned by the higher board for fuller answers. Most of the cases just sent are on appeal.

The local board classified fifty-four yesterday, placing only three in class one. This makes 374 placed in class one by the local board and 447 cases acted on.

Names of registrants who were classified yesterday and who are on appeal are as follows: Dora Gwinup, Andersonville; Charles W. Levi, Rushville; James Burrell, Jr., Jeffersonville, Ind.; Nelson Harper, Glenwood; David Chappell, Milroy.

Personal Points

Gunn Haydon has returned from a visit in Lexington, Ky.

Louis Daugherty of Indianapolis spent the day in this city on business.

John Kinsley has gone to Martinsville to take treatment at a sanitarium.

Mrs. Fred Boxley and daughter, Fay Louise, are visiting friends in Connersville.

The Misses Jennie and Theresa Madden have returned from a visit in Indianapolis.

Miss Alice Norris will leave tomorrow for an extended visit in Miami, Florida.

Mrs. McFadden of Shelbyville is visiting her daughter, Mrs. Donald Smith, in this city.

Miss Mary Sleeth will attend the district library meeting in Indianapolis tomorrow.

Mr. and Mrs. Wilbur Hays of Cambridge City are the guests of relatives in this city.

Miss Ada Fischer returned today from Spencer, Ind., where she has been visiting relatives.

Mr. and Mrs. Fred Davidson of Winchester are spending a few days in this city, visiting relatives.

Miss Helen Wilson of Connersville is the guest of Mr. and Mrs. Owen Reese and family east of the city.

Mrs. Allen Messick, of Marion returned to her home today after spending several days in this city the guest of her mother, Mrs. Emma Crnag.

Mr. and Mrs. William Sweetman and family, Mr. and Mrs. William Kennel and George Fields of Chicago arrived today to attend the funeral of Miss Mollie Sweetman.

The Rev. D. Ira Lambert has returned from Columbus, O., where he was called on account of the death of his father. Dr. Lambert was 48 hours in making the trip from Richmond to this city arriving late Sunday.

Mr. and Mrs. B. O. Simpson, who left Roswell, N. W., last Wednesday and expected to arrive here from a visit Saturday are expected home in the morning. They reached Kansas City sixteen hours late Friday evening and wired today they were leaving St. Louis tonight.

SAMMIES PACKAGES AFFECTED BY RULING

Cannot Weigh More Than Seven Pounds—Ruling Coincides With French Postal Rules

SOME MISUNDERSTAND RULE

Packages sent to the soldiers in France cannot weigh over 7 pounds. This ruling is made because the limit for packages carried by the French government is seven pounds. Some misunderstanding over the rule has arisen because at Christmas time, the United States government made provisions to carry packages weighing as high as 20 pounds, in order that the Sammies could have every chance of receiving their Christmas mail.

The rule, now, however, is being strictly enforced that all packages sent to France must come under this limit. Several larger boxes have been sent because of the ruling that was allowed for the Christmas season.

PLAN FOR WAR CONFERENCE

Representative of State Council of Defense Writes Local Chairman

T. M. Green, chairman of the County Council of Defense, is in receipt of a letter from Homer Wilson of Indianapolis representing the State Council of Defense, asking that members of the Rush County Council of Defense be called together on Wednesday of this week that he might address them on this war conference which is to be held over the state and that plans for Rush County be considered, if there is to be any more to be said at all.

GETTING OUT LUMBER FOR THE WOODEN SHIPS OF AMERICA

Throughout the timber regions of the United States and especially in the Southern pine regions strenuous efforts are being put forth to get out the timber needed for the construction of wooden ships to help combat the submarine blockade. The photograph was taken at one of the pine camps. At the left is one of the posters that have been put up everywhere to urge the lumber men to do their best.

PEACE NEGOTIATIONS DEADLOCKED TODAY

Sittings Are Adjourned When Central Powers Refuse to Evacuate Russian Territory

NO HOPE OF PEACE POPE HEAR

(By United Press.) Petrograd, Jan. 15.—Arrest of all members of the Romanian legation here today caused a sensation among the diplomatic corps.

Rome, Jan. 15.—According to reliable vatican information today, Papal representatives to Austria and to Germany have informed Pope Benedict that there is no encouragement for peace at the present time. Presumably the delegates reported on peace feelers which were put out by the vatican.

Amsterdam, Jan. 15.—The Russo-German peace negotiations were apparently deadlocked again today, according to dispatches received from Brest-Litovsk by way of Berlin. The German delegates insist on the central powers retaining grip on occupied territory in Russia.

Following refusal by the central powers to evacuate Courland, Lithuania and Riga the entire peace sitting adjourned.

Foreign Minister Trotsky demanded to know why there were no representatives of the people present and suggested they be invited.

NATIONAL PARKS MAY BE PASTURES

Hoover Suggests That National Parks Be Used for Pasturage to Increase Meat Supply

SUGGESTED TO STEARNS

(By United Press.) Estes Park, Colo., Jan. 15.—To increase the meat supply for war purposes, herds of sheep probably will gambol about the heretofore inviolate territory of the Rocky Mountain and Mesa Verde national parks, if a suggestion offered by Herbert Hoover to Thomas B. Stearns, state food administrator, proves practical. It is believed the permission of the government could be secured, and the Colorado mutton supply greatly increased, as the ungrazed national parks would furnish a luxuriant pasturage.

NOT RESULT OF REVERSES

Haig Not Recalled For This Reason, Bonar Law States

(By United Press.) London, Jan. 15.—Chancellor Bonar Law denied in the house of commons this afternoon that Field Marshal Haig had been recalled as a result of the German success at Cambrai in November. Bonar Law detailed the report of the special commission of inquiry named to investigate the Cambrai battle. He declared the report showed the Germans did not surprise the British commander-in-chief who had all necessary resources.

TO RECRUIT MEN FOR THE ARTISAN SECTION

A. L. Stewart, County Enrolling Officer, to Take Men Not Subject to Draft

MUST BE OF MILITARY AGE

A. L. Stewart, county enrolling officer, has been asked by the Indiana public service reserve officer to enlist recruits from Rush county for the artisan section of the aviation department of the army. He has been asked to secure men from the military age, not subject to the draft.

The present demand for men in this department makes it necessary for Rush county to furnish at once its share of auto or gas engine men, auto and motor truck driver, blacksmith, cabinet workers, harness makers, general mechanics, lath hands, milling, planing and tool makers, house and sign painters, brick layers and iron workers.

This is the first important demand which the army department has made on the public reserve. A. L. Stewart has established recruiting headquarters in the sheriff's office where men desiring to enlist may call for a fuller explanation of the work.

NO LIMIT TO GUARD UNITS

Several Companies May be Formed in Each County

Indianapolis, Ind., Jan. 8.—In some quarters of the state an erroneous impression is abroad as to the number of companies of Liberty Guards that may be organized in a county, some asserting that only one or two companies are allowed in each county. This is a mistake the Indiana State Council of Defense announces; as many companies will be organized as there are communities that can raise a quota of 50 or more men. Some counties are now organizing four or five companies. In Marion County it is hoped a full regiment of twelve companies will be enrolled.

TODAY'S HOOSIER BRIEF

Terre Haute, Ind., Jan. 15.—J. M. Christy, has donated his 200 acre farm near Shelbyville to the Rotary Club to further their plan of training boys between the ages of 16 and 21 years, in farm work. The boys will be sent to the farm in squads of sixteen each.

A marriage license has been issued to Miss Nelle Dudgeon, daughter of Mrs. Della Dudgeon and Walter May, son of Mrs. Margaret Clark, both of this city.

TAKE NOTICE

Until further notice commencing Thursday morning January 17th the Banks of Rushville will open for business at nine o'clock instead of eight o'clock. This action was taken at the request of Samuel L. Trubue, Fuel Administrator.

GERMANS BOMBARD YARMOUTH FROM SEA

Twenty Shells Hurlled Into Port, Killing Three and Injuring Ten—No Serious Damage

MAY HAVE BEEN A SUBMARINE

(By United Press.) London, Jan. 15.—Yarmouth was bombarded from the sea, during the night.

Twenty shells were hurled into the port. Three were killed and ten injured. The damage was not serious. The bombardment lasted five minutes.

The Germans carried out their bombardment with careful system. The first shell fired was a star shell, the light from which vividly showed the town below it. Then came the salvo of shells. The German craft was believed to be one of the largest and newest types of German submarines or else a cruiser.

SICKNESS IS A MINIMUM

Less Than Usual For Kind of Weather County Has Had

Despite the extremely cold weather and the lack of fuel in the city local physicians stated today that there has been less sickness in the city during this extremely cold weather than during any cold snap on record.

A few cases of pneumonia are being treated but the season's usual epidemic of grippe, so far at least, has been very slight in the city although there has been several cases in the northern part of the county. Colds caused from exposure, are being treated by most of the physicians but the usual results, grippe and pneumonia, have not developed.

NEED 1800 CARS OF COAL

Indiana Requires This Much to Relieve Situation

(By United Press.)

Indianapolis, Ind., Jan. 15.—Eighteen hundred cars of coal are needed immediately in Indiana, to relieve the situation, according to figures compiled by the fuel administration. Requests for immediate relief from 15 counties totaled more than 400 cars. Transportation conditions tied up by the heavy snowfall of the last three days, and the closing of mines due to the cold makes the situation the gravest of the year. All Indianapolis schools closed for the remainder of the week on account of the shortage.

APPOINTMENT PROBABLE

Washington, Jan. 15.—Appointment of R. H. Ashton, vice-president of the Chicago and North-western railroad, to a high post in Director-general McAdoo's railroad administration was forecasted this afternoon when it was learned he had been summoned to Washington.

Stacey Hinkle, son of Mr. and Mrs. Charles Hinkle of this city who enlisted in the aerial squadron at Pittsburgh a few weeks ago is attending the school of military aeronautics at Princeton, N. J. He is among the student officers at the camp, is located on the campus of Princeton university.

TO LIMIT SIZE OF PAPERS

Washington, Jan. 15.—The Senate this afternoon adopted the Jones amendment to the Censorship bill limiting newspapers to 16 pages daily or Sunday from 30 days after the passage of the bill.

FAMILY BURNED TO DEATH

(By United Press.) Marion, O., Jan. 15.—Chris Houlihan, his wife and three small children were burned to death in their home here today. A defective flue was the cause of the fire.

For Itching Torture

There is one remedy that seldom fails to stop itching torture and relieve skin irritation and that makes the skin soft, clear and healthy.

Any druggist can supply you with zemo, which generally overcomes all skin diseases. Acne, eczema, itch, pimples, rashes, blackheads, in most cases give way to zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use, and dependable. It costs only 35c; an extra large bottle, \$1.00. It will not stain, is not greasy or sticky and is positively safe for tender, sensitive skins.

TAG DAY OBSERVED MEN'S STYLES CHANGE BECAUSE OF THE WAR

Pupils Given Tags Bearing Words. "Save That Shovelful of Coal a Day For Uncle Sam."

TO BE TIED TO SHOVEL HANDLE
On Back of Tags Are Many Suggestions For Saving Coal, Offered By Fuel Administration

"Tag Day" was observed in the public schools recently when tags bearing "Save that shovelful of coal a day for Uncle Sam" were given to each pupil. The tags are tied on the handle of the shovel and are intended to be a constant reminder of the owner's patriotic duty to save fuel. On the back of the tags are several suggestions on saving coal given out by the United States Fuel Administration.

They are: Cover furnace and pipes with asbestos or other insulation; also weather strip your windows or stuff cracks with cotton. Keep your rooms at 68 degrees, best heat for health. Heat only the rooms you use all the time.

Test your ashes by sifting. If you find much good coal, there is something wrong with your heater. See a furnace expert.

Write to the maker of your furnace or stove for practical directions for running economically. Save gas and electric light as much as possible—this will save coal for the nation.

The universal tag day for fuel conservation will be observed sometime in the near future. On this day, the school children will co-operate further in the movement by distributing these tags to homes where there are no school children.

FAIRVIEW GAME OFF
Because of the weather supplemented by the illness of one of the players, the Fairview Athletic association has postponed the basketball game for Wednesday evening, January 16 when they were scheduled to meet the Elm-Roes who have the state basketball championship. The date for the game will be announced later.

Nervous Wreck Now Live Wire

Makes Everybody Sit Up And Take Notice

One of our big league ball players had been going back for some time, no matter how hard he tried he could not get his old time Pep and Ginger into the game, it was up hill work all the time. He was one of these honest hard working fellows and it finally got his "goat", his nerves went bad, he commenced to run down, could not eat or sleep and kept steadily slipping. Doctors and medicines were of no help.

One of his many admirers said to him, "Why not try Phosphated Iron, everybody is boosting it."

Grasping at the last straw, the poor fellow took a try at it. The way he came back was an "eye opener," he was there in every department of the games, his nerves were like iron, he could hit the ball and was no time getting back to the three hundred mark, while his base running and fielding were great.

Discussing the matter with our reporter he said, "Would you believe it, I could feel the Iron charging my blood with health and strength, while the day the Phosphates steadied and renewed my nerve force was almost too good to believe. Phosphated Iron took hold of me right from the start and sure did make a new man of me, and you can bet I carry a good supply on all my trips."

Doctors will tell you that you must have plenty of Iron and Phosphates in your system if you want pure red blood and steady nerves of iron. Everyone who is run down, tired and has that "all my feeling" should try Phosphated Iron and you will never be without it again.

Special Notice—To insure physical and mental well-being, the regular Phosphated Iron should be put on your medicine only. Do not allow dealers to substitute any other product on the grounds, a Phosphated Iron is the only one that will give you the results you desire.

Traveling Men Through City, State That Cotton Is Being Mixed With Wool—Styles Simple

GOVERNMENT SETS STYLES

Men's clothing in styles and material is being affected by the war. All of the changes are being made with the conservation of wool in view, that the Sammys may have their uniforms promptly and that the uniforms be made of the best grade of wool. Traveling salesman through the city state that cotton is being added to the wool suits, to the silk shirts and to some of the ties even, that wool may be conserved. The high price of wool is another reason for this change in materials. Some time ago, the government ordered men's tailoring houses to make garments in the most conservative and economical lines. For this reason, "pinchback" coats and belts on coats are being omitted and the coats are being made on simple lines.

OYSTERS OFF LOCAL MARKET FOR A TIME

Oyster Beds in East Are Completely Frozen Over and Have Been For Three Weeks Time

LOCAL STANDS HAVE A FEW

Oysters are practically off of the local market and from all indications will be for some time. The oyster beds in the east have been frozen up for three or four weeks and for this reason none has been shipped from the eastern markets. A few have been sold in this city during the past week, and they have been procured from Indianapolis, where they have either been kept in store or shipped from other than the eastern markets.

Most of the local oyster stands receive shipments usually from Baltimore or from points in New England. One restaurant alone receives twenty-five gallons weekly, but during the past few weeks has had a hard time getting any. None of the markets have been able to meet the demand of their consumers. Warmer weather, when the oyster beds will thaw is the only solution to the shortage.

MINERS TO DISCUSS INCREASE IN WAGES

United Mine Workers of America Convene in Indianapolis Monday—Increase Proposed

PRES. GOMPERS TO SPEAK

(By United Press)
Indianapolis, Ind., Jan. 15.—The biennial convention of the United Mine Workers of America opened here today with about 1,500 delegates in attendance. Every local is represented.

During the convention, vote will be taken on the 20 per cent wage increase agreed upon at a conference between Fuel Director H. A. Garfield, mine operators and union men.

"There is no doubt but that the agreement will be ratified," said William Green, secretary of the union today.

Samuel Gompers, president of the American Federation of Labor and John Mitchell, former president of the United Mine Workers, will make the principal addresses. The convention will be in session for about two weeks.

SIXTEEN KILLED IN WRECK

Calvert, Texas, Jan. 15.—A north-bound passenger train on the Houston and Texas Central railroad slipped an open switch at Hammond, killing 16 persons and injuring 14 others. The second coach, a chair car, was smashed into splinters. The dead included four children. The bodies of seven men and three women were found.

One woman and one child were taken to the hospital. The bodies of the others were buried on the spot. The cause of the wreck is being investigated.

Was Feeling All Run Down
Symptoms of "on-coming" kidney trouble deserve prompt attention, for neglect invites serious illness. Louis Backner, Somerset, Va., writes: "I was feeling all run down, aching with pains in my back. After taking Foley's Kidney Pills I felt like a new man. My backache, rheumatic pains, stiff joints, sore muscles, swollen ankles, puffiness under eyes and sleeplessness, bladder ailments, etc., all disappeared. I feel like a new man. I will continue to take them."

Rheumatic Aches
Drive them out with Sloan's Liniment, the quick-acting, soothing liniment that penetrates without rubbing and relieves the pain. So much cleaner than musky plasters or ointments; it does not stain the skin or clog the pores. Always have a bottle in the house for the aches and pains of rheumatism, gout, lumbago, strains, sprains, stiff joints and all muscle soreness.
Generous size bottles at all druggists.

OUR GOVERNMENT FOOD CONTROL EXPERT SAYS "DO NOT WASTE YOUR FOOD"

Thousands Take Pepsinco Because the Druggist Tells Them It Is the Best for All Stomach Ailments.

Many persons are using a new system of food digestion, not only because our government's food expert says that we shall conserve the food, but also because the high price of food stuffs compels retrenchment.

Pepsinco, this systematic method of digestion is inexpensive and can always be relied upon. It is small and powerful. One little tablet will digest an ordinary meal. Everything will be assimilated. The meal will give you strength. Your entire system will undergo a change for the better once you start this treatment.

Stop at the drug store today and get a small package of Pepsinco, the perfect digester and make every gram of food do its duty. Fully guaranteed.

OFFICE HOURS
Jan. 11-30 am
Phone—Office 1572, Res. 1241

The meeting of the Ladies Musical which was to have been held yesterday at the court house was postponed because of the inclemency of the weather. The next meeting will be held on the regular date, January 23, in the sheriff's office and an interesting and enjoyable program has been arranged. Mrs. Parke will be in charge of the program which will be a symphony program. The time of the meeting has been changed from afternoon until evening and the ladies have planned that this meeting shall be a guest meeting. However, definite announcement to that effect will be made later.

The Bible Study classes of the Epworth League met last night with Miss Dorothy Mulno at her home in North Jackson street. Fifteen members were present for the interesting discussion which was led by Miss Macey. The next meeting will be held next Monday night with Miss Katherine Giffin. Miss Macey will be the leader for this meeting as well as for the remaining lessons of the series which the class is studying, which deal with the life of Christ.

The home of Miss Anna Amos in North Perkins street was the scene of a pleasant evening party last Friday evening when assisted by Miss Mildred Davis, she entertained several friends. The guests included the Misses Margaret Gardner, Martha Ruhlman, Grace Schaffer and Hershel Bates, Orville Evans and George Ruhlman of this city and Private Thomas McCollins of Camp Taylor, Ky.

Twelve members of the Royal Neighbors were present at the regular meeting which was held at the Modern Woodmen hall last night. At the conclusion of the business meeting a social hour was held and a delicious one course luncheon was served. The next meeting will be held in two weeks at which the new officers will be installed.

Mr. and Mrs. Willard Amos entertained the following guests at a picnic dinner last night at their home in North Perkins street: Mr. and Mrs. A. L. Stewart, Mr. and Mrs. O. M. Harton, William Inlow and Miss Lucy Inlow and A. L. Winston.

The current event meeting of the Monday Study Club of Milroy which was to have been held yesterday was postponed. The next regular meeting of the club will be held Monday, January 21, with Mrs. Dora Jackson.

The regular meeting of the D. A. R. which was to have been held Thursday has been postponed indefinitely.

Mrs. Charles Frazee will entertain the five hundred club at her home in North Main street Wednesday afternoon.

Mrs. Stella Davis of Arlington who has been seriously ill with pneumonia for several days, is improving.

The Embroidery Club of Milroy will meet Wednesday afternoon with Mrs. William Bosley.

The Juvenile club will meet tomorrow with Mrs. James Moore.

MUST STAY IN QUARANTINE

Health Officer Can't Get to Lucas Home Because of Weather

Because Dr. E. I. Wooden, county health official, has been unable to go into the country on account of the heavy snow drifts, Mrs. John Lucas and daughter who were both quarantined for diphtheria for several days, are still in quarantine. The children remain about as well as they can be expected to be under the circumstances and will be released from quarantine when the health officer can get to the home.

Registration of Women to Begin in April

Rush County Will be Thoroughly Organized and Purpose of Drive Will be Understood Before it is Started. Some Misunderstanding When Attempted Before.

Rush county women will be given an opportunity to understand fully the purpose of the registration of women through the county chairman Mrs. Louis C. Lambert, before the drive which will be made here early in April, as a part of the national campaign, is started.

"Local women did not understand the purpose of the registration when an attempt to make the drive was started last summer," said Mrs. Lambert. "Most of them were under the impression that in signing one of the registration cards, they were binding themselves to perform a task which would be utterly impossible."

A number of preliminary meetings will be held through the county before the campaign is launched to explain fully the real meaning of the registration which is solely to learn the amount of woman power in the county.

Previous attempts to get women's signatures to the registration cards have been made through the state defense council. The drive for which the preparations are now being made, however, is a nation wide movement and every county in every state in the union will be thoroughly canvassed.

A meeting of the county registration chairmen and the women members of the defense council is being arranged for and will be held in Indianapolis before the close of the present month. State and national defense and registration leaders will conduct the meeting and will explain fully the registration movement and the lines along which the county officials are to conduct their campaign.

The campaign will start in Rush county, April 19 and will continue for ten days. Under the supervision of Mrs. Lambert, the township chairmen of the war work will conduct the registration in their various townships.

SENATOR WATSON TO VOTE FOR SUFFRAGE

Letter Received by Miss Mary Sleeth President of the Local Franchise League

ELLIOTT VOTED FOR THE BILL

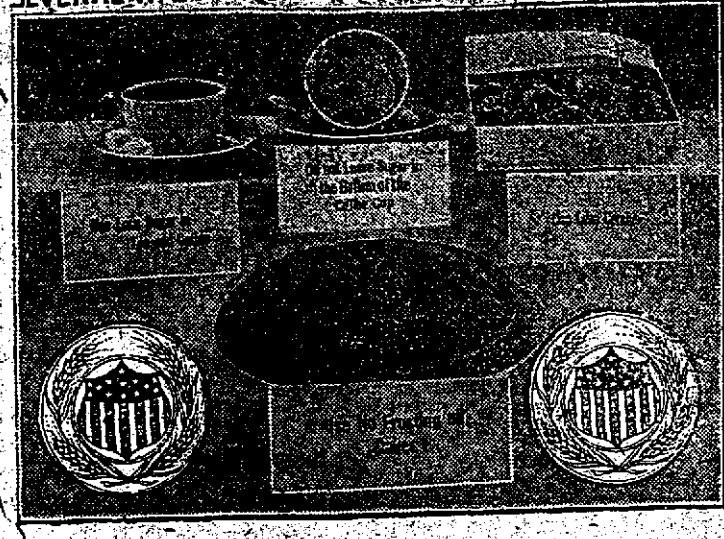

Senator James E. Watson will vote for the suffrage amendment and Congressman Richard Elliott has already done so, according to the letter received by Miss Mary Sleeth, president of the local Franchise League, from Senator Watson in answer to the petition sent from the leagues of this district to Senators Watson and New. The letter reads "I have your letter and petitions. I shall vote for suffrage and so will Dick Elliott."

The petitions were a part of the suffrage drive by the Franchise League of the state and men and women from all over the district had signed them. Hundreds of names had been signed, many of them by Rush county persons. Their bulk was an idea to the sentiment of a number of the people of the state.

ROY GUFFIN DIES

Mrs. Sarah Giffin received word this morning that her nephew Roy Giffin of Indianapolis died last night at nine thirty after an illness of three days. He was the son of the late Andrew Giffin and lived in Rushville when he was a child. The announcement of the funeral will be published in tonight's Indianapolis News.

SEVERAL WAYS TO SAVE SUGAR WHICH IS YOUR WAY?

To Do Their Part to Help Win The War

Colored Women Form Red Cross Auxiliary And Are Given Use of Room in Graham School Building. Instructors Will be Sent to Teach Correct Methods of Sewing.

No one has paid much attention to what the colored women of the county are preparing to do to help win the war but they are doing their share, nevertheless.

The executive committee of the county chapter of the Red Cross, in an answer to an appeal made by the colored auxiliary which is being formed, asked permission from the school board that the colored women be given the use of one of the vacant rooms in a school building to use for a headquarters. The request was granted and one of the vacant rooms on the second floor of the Graham Annex was put at their disposal.

Because the building is heated well and is close to the homes of most of the women it will be an ideal place for them to do Red Cross work. The executive committee is assisting the auxiliary in every manner possible to get their organization completed and as soon as this is done will install machines and send instructors to the new headquarters at all of the meetings in order that the women may learn the correct methods of sewing.

The women will use their headquarters two or three afternoons in each week when sewing and knitting

Doctors Fail

"Terrible case of Eczema" contracted when a mere boy—fourteen years for ten years, with half dozen specialists. Both legs in terrible condition. Almost a nervous wreck. It took just 8 bottles to clear up this disease. This is the life testimony of a prominent newspaper man. His name and his remarkable story in full on request. We have seen so many other cures with this marvelous liquid wash that we freely offer you a bottle on our personal guarantee. Try it today.

TO TREAT U.S. CAPTIVES WELL

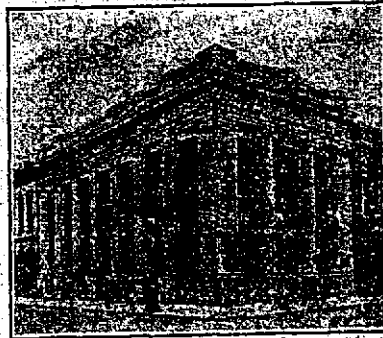

Copenhagen, Jan. 15.—Denials that Germany intends to treat American prisoners of war "in a more severe manner than any others" was reported in Berlin dispatches today. The Germans say that the American general staff seems to "derive its information from irresponsible sources."

Save Service Sacrifice

are the words of our present National Slogan. They call to duty every American citizen, and ask each person to save by a definite plan, that we may be prepared to render in this crisis, that degree of Service that our Nation has a right to ask and to expect.

We suggest that you use one of our Savings Plans and Thrift Methods that find favor with so many of our patrons. We invite you to call and to allow us to explain how easy it is to start an account, and by the habit of Saving, create a fund that will be ready for use at the time you most need it.

HEALTH

Did you ever stop and consider how much more prevalent the ordinary contagious diseases, such as whooping cough, measles, diphtheria, scarlet fever, etc., are during the last semester of the school year?

Is there not a very close connection between this fact and the further fact that school garments, such as dark woolen suits and dresses, coats, overcoats and cloaks are often worn every day, week after week and month after month without being thoroughly cleansed and sterilized?

You should send all these garments at reasonable intervals to be cleaned, pressed and repaired. Such cleansing as we give them is the best health insurance you can secure for school children.
